ŠKODA Rapid - Accessories

The ŠKODA Rapid is a practical family car, which will prove itself in everyday life situations. However, if you wish to adapt the car to the specific wants and needs of your family, you will appreciate distinctive products from the **ŠKODA Genuine Accessories**.

The wide range of Rapid accessories offers attractive features including alloy wheels, which will give your car a unique style. To make your journeys more pleasant, you can select from our radios and navigation systems packed with modern technologies. The utility of the car can further be increased by the many accessories designed for the luggage compartment. Journey comfort is increased by other products, which can be used by the whole crew. We also bring you safety solutions including child seats for all age categories. A wide range is only one of the many advantages of using ŠKODA Genuine Accessories. All products have been approved by ŠKODA AUTO and are distinguished by their top quality. Among their other basic properties are reliability, safety and long life.

Sport and design

The new ŠKODA design language speaks to us, via the Rapid model, with clear lines and clean surfaces. The simplicity and precision of the design forms the perfect basis for decorative accessories. Foils or exterior chrome elements will increase the elegance of the Rapid model and add to its uniqueness. Alloy wheels in a variety of colour combinations will accentuate the dynamic and robust look of the model.

Set of decorative foils for the side and 5th door (5JA 064 317A in silver colour, 5JA 064 317 in matt black colour and 5JA 064 317D in black glossy colour)

The **decorative chrome package** perfectly compliments any of the offered body paint colours and so maximizes the attractiveness of your car. The complete package includes a front spoiler chrome strip, 5th door chrome strip and chrome external mirrors.*

or 4 snowboards; 380-litre capacity; successfully passed City Crash Test
(5L6 071 175)

CITY CRASH
TESTED
TECHNOLOGY

The City Crash is a method of testing genuine accessories products that can be fitted to the vehicle's body, such as roof railings, transverse roof racks and other transport systems including boxes, bicycle, ski and surfboard carriers etc.

Method: A section of the body is fitted to special skids, which are travelling at a speed of 30 km/h. At the moment of the simulated collision, the force reaches between 9 and 12 G's and lasts for 80 ms.

Evaluation: In order to successfully pass the City Crash test, none of the transported objects may get detached from the body, which demonstrates that the safety of both pedestrians and other vehicles in real traffic is not endangered by the product.

**Bicycle carrier
for a tow bar;**
2 bikes capacity
(LBT 009 005)

Detachable tow bar (5JH 092 155)

Car safety extends from the well-being of the crew through to the security of the car itself and the mandatory equipment. This is why our range is so wide, offering, among others, child seats, a mechanical drive locking system and first aid box. We have thought of everything, including how to prevent getting stuck on a snowy mountain road - just pack in the snow chains and shovel.
